1.—(1) In this Appendix,

- (a) "burn-through area" means that area in the root bead where excessive penetration has caused the weld puddle to be blown into the pipe;
- (b) "elongated slag inclusion" means a slag inclusion located in the fusion zone;
- (c) "gas pockets" means voids occurring in the weld metal;
- (d) "inadequate penetration" means the incomplete filling of the bottom of the weld groove with weld metal;
- (e) "incomplete fusion" means the lack of bond between beads or between the weld metal and the pipe metal;

- (f) "isolated slag inclusion" means an irregularly shaped slag inclusion located in a weld elsewhere than in the fusion zone;

- (h) "twelve-inch lengths" means succeeding twelve-inch lengths measured from the top centre of the pipe;
- (i) "undercutting" means the burning away of the side-walls of a welding groove at the edge of a layer of weld metal.

(2) In this Appendix,

- (a) all measurements for the location of test specimens are taken clockwise from the top centre of the pipe, facing in the direction of the construction; and
- (b) the length of a defect is measured along the circumferential weld.

TESTS AND STANDARDS FOR WELDS

2. The type and number of test specimens shall be as specified in Table 1.

3. Test specimens shall be removed as shown in Figure 1, shall be spaced approximately equidistant around the pipe, and shall be prepared for tests as shown in Figures 2, 3 and 4, and as prescribed in section 8, 9 and 11.

4. Tensile test specimens shall be ruptured under tensile load. The tensile strength shall be computed by dividing the maximum load at failure by the least cross-sectional area of the specimen as measured before load is applied. The tensile strength of each specimen shall be equal to or greater than the minimum specified tensile strength of the pipe material. If the specimen breaks in the pipe metal outside of the weld or fusion line, the test shall be accepted as meeting the requirements provided the strength is not more than 5 per cent below the specified minimum tensile strength of the pipe metal. Each specimen subjected to tensile load shall meet the above requirements.

5. Face-bend and root-bend specimens shall be bent in a test jig having dimensions shown in Figure 5. The specimen shall be placed on the die of the test jig with the weld at mid-span. The face-bend specimen shall be placed with the face of the weld directed toward the gap and the root-bend specimen shall be placed with the root of the weld directed toward the gap. The plunger of the jig shall be forced into the gap until the curvature of the specimen is approximately U-shaped. The bend test shall be considered acceptable if no crack or other defect exceeding one-eighth of an inch in any direction is present in the weld metal or between the weld and the pipe material after bending. Each specimen subjected to the bend test shall meet the above requirements. Cracks which originate along the edges of the specimen during testing and which are less than one-quarter of an inch measured in any direction shall not be considered.

6. Nick-break specimens shall be notched by hacksaw from both edges of the specimen and at the centre of the weld. They shall be broken by pulling or hammer blows at the centre or one end of the specimen. The exposed surface of the specimen shall show no more than six gas pockets per square inch, with the greatest dimension not to exceed one-sixteenth of an inch. Slag inclusions shall not be greater than one-thirty-second of an inch in depth or one-eighth of an inch in width, and shall be separated by at least one-half inch of sound weld metal. Each specimen subjected to the nick-break test shall meet the above requirements.

7. The weld must be free of cracks, inadequate penetration, burn-through, and other obvious defects, and it must present a neat workman-like appearance. Undercutting adjacent to the final bead on the outside of the pipe shall not exceed one-thirty-second of an inch in depth.

8. Tensile-test specimens as shown in Figure 2 shall be approximately one inch wide; the weld reinforcements, both at the face and at the root of the weld, shall not be removed. Specimens may be oxygen-cut, and without additional machining or preparation if the sides are parallel and free from notches or unevenness which may adversely affect the test results.

9. Nick-break test specimens as shown in Figure 3 may be oxygen-cut and without additional preparation. The specimens shall be notched by hacksaw on both edges of the specimen at the centre of the weld to cause failure in the weld metal, and shall be broken,

- (a) by pulling in a suitable testing machine;
- (b) by supporting the ends and striking the centre of the specimen with a heavy hammer; or
- (c) by supporting one end of the specimen in a vice and striking the other end with sharp hammer blows. The exposed area of the fracture shall have a minimum width of one inch.

10. The nick-break test shall show complete penetration and fusion throughout the entire thickness of the weld specimen. If inadequate penetration occurring in one of the test specimens is not representative of the weld, the specimen may be replaced by another specimen cut adjacent to the specimen that was rejected. The exposed surface shall show no more than six gas pockets per square inch with the greatest dimension not to exceed one-sixteenth of an inch. Slag inclusion shall be not greater than one-thirty-second of an inch in depth or one-eighth of an inch in width and shall be separated by at least one-half of an inch of sound weld metal.

11. Bend-test specimens as shown in Figure 4 shall be approximately one inch wide and may be oxygen cut. Both the cover and root bead reinforcement shall be removed flush with the pipe wall. Final removal of excess metal shall leave the surface free of deep scratches, and any remaining scratches shall be transverse to the weld. Sharp edges shall be reduced to a smooth radius. One-half the number of specimens shall be subjected to face-bend tests, and the other half of the number of specimens shall be subjected to root-bend tests.

12. All bend-test specimens shall be tested in a guided-bend test jig, similar to that shown in Figure 5. Each specimen shall be placed on the die with the weld at mid-span. Face-bend specimens shall be placed with the face of the weld directed toward the gap; root-bend specimens shall be placed with the root of the weld directed toward the gap. The plunger shall be forced into the gap until the curvature of the specimen is approximately U-shaped.

13. The bend test shall be considered acceptable if,

- (a) no crack or other defect exceeding one-eighth of an inch in any direction is present in the weld metal or between the weld and the pipe material after bending, but cracks which originate along the edges of the specimen during testing and that are less than one-quarter of an inch measured in any direction shall not be considered; or
- (b) the specimen cracks or fractures during bending and the exposed surface shows,
  - (i) complete penetration and fusion throughout the entire thickness of the weld specimen,

- (ii) no more than six gas pockets per square inch with the greatest dimension not exceeding one-sixteenth of an inch, and
- (iii) at least one-half inch of sound metal separating slag inclusions, and no slag inclusion greater than one-thirty-second of an inch in depth or one-eighth of an inch in width.

If necessary, the specimen shall be broken apart to permit examination of the fracture. Weld test specimens in high-test API 5LX pipe that can not be bent the full U-shape shall be qualified under this clause.

14. Laminations, split ends or other defects in the pipe shall be cropped, repaired or removed from the line.

15. Any individual defects due to inadequate penetration or incomplete fusion shall not exceed one inch in length. The total length of such defects in any twelve-inch length of weld shall not exceed one inch. The total length of such defects in any two succeeding twelve-inch lengths shall not exceed two inches and individual defects shall be separated by at least six inches of sound weld metal.

16. Any individual burn-through area shall not exceed one-half inch in length. The total length of burn-through area in any twelve-inch length of weld shall not exceed one inch. The total length of burn-through area in any two succeeding twelve-inch lengths shall not exceed two inches and individual defects shall be separated by at least six inches of sound weld metal.

17.—(1) Any elongated slag inclusions shall not exceed two inches in length or one-sixteenth of an inch in width. The total length of elongated slag inclusions in any twelve-inch length of weld shall not exceed two inches and the total length of elongated slag inclusions in any two succeeding twelve-inch lengths shall not exceed four inches. Adjacent elongated slag inclusions shall be separated by at least six inches of sound weld metal. Parallel slag lines shall be considered as individual defects if their individual width is greater than one-thirty-second of an inch.

(2) The maximum width of any isolated slag inclusion shall not exceed one-eighth of an inch. The total length of isolated slag inclusions in any twelve-inch length of the weld shall not exceed one-half inch, not shall there be more than four isolated slag inclusions of the maximum width of one-eighth of an inch in this length. The total length of isolated slag inclusions in any twenty-four-inch length of weld shall not exceed one inch. Adjacent isolated slag inclusions shall be separated by two inches of sound weld metal.

18. The maximum dimension of any individual gas pocket shall not exceed one-sixteenth of an inch. Maximum distribution of gas pockets shall not exceed that shown in Figures 6 and 7.

19. No weld containing cracks, regardless of size or location shall be acceptable except as provided for in section 22 and 23.

20. Any accumulation of discontinuities having a total length of more than two inches in a weld length of twelve inches is unacceptable. Any accumulation of discontinuities which total more than 10 per cent of the weld length of a joint is unacceptable.

21. Undercutting adjacent to the cover bead on the outside of the pipe shall not exceed one-thirty-second of an inch in depth and two inches in length. Undercutting adjacent to the root bead on the inside of the pipe shall not exceed two inches in length.

22. Cracks visible in the surface bead and not more than two inches in length may be repaired, but any crack penetrating the root bead or the second bead shall be cause for complete rejection of the weld. The entire weld shall then be cut from the line and replaced. Repairs may be made to pin holes and undercuts on the final bead.

23. Before repairs are made, injurious defects shall be entirely removed by chipping, grinding or oxygen gouging to clean metal. All slag and scale shall be removed by wire brushing. Such repaired areas shall be re-radiographed, or inspected by the same means previously used. No further repairs shall be allowed in repaired areas.

APPENDIX B

FLATTENING TEST FOR PIPE

- 1. The flattening test shall be made on standard weight and extra strong pipe over two inches in nominal diameter. It shall not be required for double extra strong pipe.
- 2. For lap-welded and butt-welded pipe the test section shall be four to six inches in length and the weld shall be located 45° from the line of direction of the applied force.
- 3. For electric-resistance welded pipe, both crop ends from each length of pipe shall be flattened between parallel plates, with the weld at the point of maximum bending, until opposite walls of the pipe meet. No opening in the weld shall take place until the distance between the plates is less than two-thirds of the original outside diameter of the pipe. No cracks or breaks in the metal elsewhere than in the weld shall occur until

the distance between the plates is less than one-third of the original outside diameter of the pipe, but in no case less than five times the thickness of the pipe wall. Evidence of lamination or burnt material shall not develop during the entire flattening process, and the weld shall not show injurious defects.

4. For seamless pipe the test section shall not be less than two and one-half inches in length.

5. The test shall consist of flattening a section of pipe between parallel plates until opposite walls meet. For welded pipe, no opening in the weld shall take place until the distance between the plates is less than three-quarters of the original outside diameter for butt-weld or two-thirds the outside diameter for lap-weld and electric-resistance weld, and no cracks or breaks in the metal elsewhere than in the weld shall occur until the distance between the plates is less than that shown in Column 2 of the following Table for the kind of pipe set opposite thereto in Column 1.

TABLE

COLUMN 1	COLUMN 2
Kind of Pipe	Distance Between Plates "H"
For butt-welded pipe.....	60 per cent of outside diameter
For lap-welded pipe.....	one-third the outside diameter
For electric-resistance welded pipe.....	one-third the outside diameter
For seamless pipe Grades A and B.....	to the distance "H" as determined under the formula set forth in section 6.

6. The least distance between plates for testing seamless pipe Grades A and B, as represented by H, shall be determined by the following formula,

where  $H = \frac{(1 + e)t}{e + t/D}$

- H = distance between flattening plates in inches,
- t = nominal wall thickness of pipe in inches,
- D = actual outside diameter of pipe in inches, and
- e = deformation per unit length being 0.09 for Grade A and 0.07 for Grade B seamless pipe.

APPENDIX C

1. The yield strength is the tensile stress required to produce a total elongation of 0.5 per cent of the gauge length as determined by an extensometer or by multiplying dividers.

TENSILE TESTS

- 2. For hot-rolled seamless pipe in all sizes and for welded and cold-worked seamless pipe in size six and five-eighths inches the tensile properties shall be determined by tests on longitudinal specimens conforming to the requirements of sections 5, 6 and 7.
- 3. For welded pipe and cold-worked seamless pipe, in sizes eight and five-eighths inches and larger, the tensile properties shall be determined by tests on transverse specimens conforming to the requirements of section 8.
- 4. Tensile tests on all longitudinal specimens and on all transverse body-test specimens shall include yield strength, tensile strength, and elongation determinations. Transverse yield strength may be determined by the ring-expansion method. Transverse weld-test specimens need be tested for tensile strength only. All tensile tests shall be made with the specimens at room temperature.
- 5. Longitudinal tensile test specimens shall be either full-section specimens or strip specimens. Strip specimens from seamless pipe may be taken from any location. Strip specimens from mill-welded pipe shall be taken approximately 90 degrees from the weld or from the skelp, parallel to the direction of rolling and approximately midway between the edge and the centre.

6. All longitudinal strip specimens shall be approximately one and one-half inches wide in the gauge length if suitable curved-face testing grips are at hand; otherwise they shall be approximately one inch wide for six and five-eighths inch pipe, and approximately one and one-half inches wide for pipe eight and five-eighths inches and larger.

7. Longitudinal test specimens shall represent the full wall thickness of the pipe from which the specimen was cut, and shall be tested without flattening.

8. Transverse tensile test specimens from seamless pipe may be taken from any location; transverse body-test specimens from welded pipe shall be taken opposite the weld; transverse weld-test specimens shall be taken with the weld at the centre of the specimen. All transverse test specimens shall be approximately one and one-half inches wide in the gauge length, and shall represent the full wall thickness of the pipe from which the specimen was cut.

9. All test specimens shall be selected at random and the number of tensile tests shall be as follows:

15.—(1) Subject to subregulation 2, every holder of an operating licence shall issue a bill of lading to the person delivering or releasing goods to the licensee for transportation for compensation.

(2) Subregulation 1 does not apply to holders of Class "E" and Class "F" operating licences, except holders of Class "F" operating licences transporting live stock, bricks, tile, cement, cement blocks or cinder blocks. O. Reg. 36/60, s. 15.

- (c) the date of the shipment;
- (d) the name of the consignee;
- (e) the destination of the shipment;
- (f) the name of the carrier issuing the bill of lading;
- (g) the number of the pieces or quantity of goods;
- (h) the contents of packages or particulars of goods;
- (i) the gross weight of each shipment; and
- (j) whether the charges are prepaid or collect.

(2) A bill of lading issued by a licensee operating under a Class "C" authority shall show the name of the payer of the transportation charges.

(3) A bill of lading shall include an acknowledgment of receipt by the carrier of the goods therein described and an undertaking to carry such goods for delivery to the consignee or the person entitled to receive the goods and shall be signed by, or on behalf of, the issuing carrier and by the consignor.

(4) A bill of lading shall contain on the face thereof,

- (a) a space in which to show the declared valuation of the shipment, if any;
- (b) a space in which to show the amount to be collected by the carrier on a cash on delivery shipment;
- (c) where the shipment is at the owner's risk, the words "at owner's risk";
- (d) where the bill of lading is issued by a person other than the holder of a Class "H" operating licence, the statement

"Maximum liability \$1.50 per pound unless declared valuation states otherwise" printed in red and conspicuously located at the space for the signature of the consignor;

(e) where the bill of lading is issued by the holder of a Class "H" operating licence and the terms fix a maximum liability in case of loss or damage to the goods at an amount other than the actual value of the goods, the statement "Maximum liability in case of loss or damage \$ per pound and \$ for the entire shipment described in the bill" printed in red and conspicuously located at the space for the signature of the consignor. O. Reg. 36/60, s. 15a.

15b. The following conditions shall be deemed to be a part of every contract for the transportation of goods for compensation:

1. The carrier of the goods herein described is liable for any loss thereof or damage or injury thereto, except as herein provided.
2. Where shipments are handled by more than one carrier, the carrier issuing the bill of lading, in addition to any other liability hereunder, is liable for any loss, damage or injury to the goods caused by or resulting from the act, neglect or default of any other carrier to whom the goods are delivered and from whom the other carrier is not by the terms of the bill of lading relieved and the onus of proving that such loss, damage or injury was not so caused and did not so result is upon the carrier issuing the bill of lading.
3. The carrier issuing the bill of lading is entitled to recover from any other carrier to whom the goods are delivered in the course of their conveyance to their final destination the amount of the loss, damage or injury that the carrier issuing the bill of lading may be required to pay hereunder caused by or resulting from the handling of the goods by the other carrier, if the carrier issuing the bill of lading is not relieved therefrom by the terms of the bill of lading, and if the loss, damage or injury was not caused by the act, neglect or default of the carrier issuing the bill of lading, subject to the onus set out in paragraph 2.
4. Nothing in paragraphs 2 or 3 deprives the holder of the bill of lading, or party entitled to the goods, of any remedy or right of action that he may have against the carrier issuing the bill of lading or against any other carrier.
5. The carrier is not liable for loss, damage or delay to any of the goods described in the bill of lading caused by act of God, the Queen's or public enemies, riots, strikes, defect or inherent vice in the goods, the act or default of the shipper or owner, the authority of law, quarantine or differences in weights of grain, seed, live stock or other commodities caused by natural shrinkage.
6. Where goods are stopped and held in transit at the request of the party entitled to request it, the goods are held at the risk of the owner.

7. No carrier is bound to transport the goods by any particular public commercial vehicle or in time for any particular market or otherwise than with due despatch, unless by agreement specifically endorsed on the bill of lading and signed by the parties thereto.
  8. In case of physical necessity the carrier has the right to forward the goods by any conveyance or by any route between the point of shipment and the point of destination, but if the goods are forwarded by a conveyance that is not a public commercial vehicle, the liability of the carrier is the same as though the entire carriage were by public commercial vehicle.
  9. Subject to paragraph 10, the amount of any loss, damage or injury for which the carrier is liable, whether or not the loss, damage or injury results from negligence, shall be computed on the basis of,
    - i. the value of the goods at the place and time of shipment including the freight and other charges if paid; or
    - ii. where a value lower than that referred to in subparagraph i has been represented in writing by the consignor or has been agreed upon, such lower value.
  10. Except in respect of a shipment by the holder of a Class "H" operating licence, the amount of any loss or damage computed under subparagraph i or ii of paragraph 9 shall not exceed \$1.50 per pound unless a higher value is declared on the face of the bill of lading by the consignor.
  11. Where it is a term or condition that the goods are carried at the risk of the consignor or owner, the condition covers only such risks as are necessarily incidental to transportation and shall not relieve the carrier from liability for any loss, damage, injury or delay that may result from any negligence or omission of the carrier, its agents or employees and the burden of proving the absence of negligence or omission is on the carrier.
  12. The carrier is not liable for loss, damage, injury or delay to any goods carried under the bill of lading unless notice thereof setting out particulars of the origin, destination and date of shipment of the goods and the estimated amount claimed in respect of such loss, damage, injury or delay is given in writing to the carrier at the point of delivery or at the point of origin within ninety days after the delivery of the goods, or, in the case of failure to make delivery, within ninety days after a reasonable time for delivery has elapsed.
  13. Where, through no fault of the carrier, the carrier is unable to effect delivery of goods to the person entitled to receive them, the goods may,
    - (a) be kept in the warehouse of the carrier, subject to a reasonable charge for storage and to the carrier's responsibility as warehouseman only; or
    - (b) at the option of the carrier, after written notice of the carrier's intention to do so has been served on the consignor and consignee of the goods in person or by registered mail, be removed to, and stored in, a public or licensed warehouse at the expense of the owner of the goods and there held at the risk of the owner, without liability on the part of the carrier, and subject to a lien for all freight and other lawful charges including a reasonable charge for storage.
  14. No carrier is bound to carry any documents, specie or any articles of extraordinary value unless by a special agreement to do so and where the nature and stipulated value of the goods is disclosed to him the duty of obtaining such special agreement is on the carrier.
  15. The owner, or consignee of the goods, shall pay the freight and all other lawful charges accruing on the goods, and if required by the carrier shall pay the same before delivery, and if the goods shipped are not those described in the bill of lading, the freight charges shall be paid upon the goods actually shipped with any additional penalties due.
  16. Every person, whether as principal or agent, shipping explosives or dangerous goods without previous full written disclosure to the carrier of their nature, shall indemnify the carrier against all loss, damage or injury caused thereby and the goods may be warehoused at the risk and expense of the owner of the goods.
  17. Any alteration, addition or erasure in a bill of lading shall be signed or initialled by the parties thereto. O. Reg. 36/60, s. 15b.
  - 15c.—(1) Every driver operating a public commercial vehicle shall carry on each trip a copy of the bill of lading, or a memorandum of the bill of lading, and shall produce it when required for inspection by a member of the Ontario Provincial Police Force or an officer of the Department.
  - (2) A memorandum of a bill of lading shall bear the same number, or other positive means of identification, as the original bill of lading and shall show particulars of the goods carried on the vehicle, the name of the consignor, the originating point of the shipment, the name of the consignee, the destination of the shipment, connecting carriers, if any, and whether the charges are prepaid or collect.
  - (3) Where a shipment is made by the holder of a Class "C" operating licence, the memorandum shall show the name of the payer of the transportation charges. O. Reg. 36/60, s. 15c.

## PUBLIC AND SEPARATE SCHOOLS

### APPLICATION

6. This Part applies to general legislative grants in respect to public and separate schools.

### INTERPRETATION

7.—(1) In regulations 10 and 13, "recognized cost" means,

- (a) the portion approved by the Minister for grant purposes of the payment, or of the amount set aside for payment, by a board from its current funds, or on its behalf by a municipal council, in the current year on principal and interest due in that year on debentures issued and capital loans obtained on or after the 1st day of January, 1951;
- (b) the portion approved by the Minister for grant purposes of the payment, or of the amount set aside for payment, by a board from its current funds, or on its behalf by a municipal council, in the preceding year on principal and interest due in that year on debentures issued and capital loans obtained before the 1st day of January, 1951;
- (c) the disbursement in respect of tuition fees to another board by a board from its current funds, or on its behalf by another board, in the preceding year, but not including fees paid to a board established under section 66 of *The Public Schools Act* which operated a school in a cerebral palsy treatment centre;
- (d) the portion of the cost approved by the Minister for grant purposes in respect of disbursements made by a board from its current funds in the preceding year, except as set forth under regulation 13, for
  - (i) transportation of pupils to and from school where their parents or guardians do not contribute directly to the cost of the transportation,

- (ii) structural alterations, new foundations, new basements, new stairways, new roofs, new floors, fire-escapes, fire-doors, new heating-equipment, new lighting, new modern toilet accommodation, new water-facilities, new fences, new blackboards, new desks, new pianos, and new film-projectors, except where the school under the jurisdiction of the board is in an urban municipality having a population of 2,500 or more or is in a rural municipality having a population of 25,000 or more,

- (iii) capital outlays for new schools, for additions to schools, and for new class-rooms, and
- (iv) capital outlays for school buses for the transportation of pupils; and
- (e) the total disbursements made by a board from its current funds in the preceding year, except as set forth under regulation 13, for
  - (i) instructional salaries and travelling allowances for itinerant teachers not exceeding \$115 for each pupil of average daily attendance as determined under subregulations 1 and 2 of regulation 8 and under regulation 9, except where the board qualifies for a grant under subregulation 1 of regulation 10,
  - (ii) fuel and electricity where the board qualifies for a grant under subregulation 5 of regulation 10 and the assessment per classroom unit is less than \$30,000,
  - (iii) restoration of insured school-property destroyed or damaged, but not exceeding an amount equal to the insurance proceeds received in respect thereof, and
  - (iv) the fee for membership in the Ontario School Trustees' Council and the fee paid for membership in one member association of the Ontario School Trustees' Council,

less current-fund receipts during the preceding year as follows:

- (f) tuition fees from another board;
- (g) amounts transferred to current funds from capital funds;
- (h) insurance proceeds;
- (i) proceeds from the sale of school buildings and equipment; and

(2) In this Part, "recognized extraordinary expenditure per class-room" for a board operating a school means, the quotient obtained by dividing the sum of the amounts recognized for grant purposes for debenture payments, for capital outlays from current funds, and for transportation, by the number of class-rooms recognized for grant purposes, but excluding from the calculation the fractions of class-rooms to which the board of a larger unit of administration is entitled in sub-clause i of clause b of subregulation 3.

(3) In this Part,

(a) "assessment" means,

- (i) the assessment of all property, including any business assessment, rateable for public-school purposes in the public-school section or for separate-school purposes in the area prescribed under section 57 of *The Separate Schools Act*, as the case may be, as shown on the assessment roll on which taxes were levied for the preceding year, adjusted by the provincial equalizing factor, or

- (ii) where money is received by the board under section 33 of *The Assessment Act* or clause b of regulation 4 of Ontario Regulations 197/52, the assessment as set forth in sub-clause i, together with an amount equivalent to that which, if levied upon at the rate of real-property taxation on the rate-payers of the school-section or separate-school organization for school purposes, would result in taxes equal to the moneys so received by the board, adjusted by the provincial equalizing factor,

but where the assessment per class-room to be used for a board in the calculation of the grant under subregulation 4, 5 or 7 of regulation 10 is more than 120 per cent of the assessment per class-room used for that board in the preceding year, the assessment per class-room of that board means,

(a) 120 per cent of the latter assessment, or

(b) 50 per cent of the actual assessment per class-room,

whichever is the greater, or

- (iii) where there is no assessment for school purposes, the assessment per class-room shall be deemed to be \$400,000;

(b) "number of class-rooms" means,

- (i) for the board of a larger unit of administration, the number of open class-rooms on the first school-day of the current year, together with one-half of a class-room, for each of the former school-sections or separate-school areas in which the board is not operating a school and which are included in the larger unit,
- (ii) for a board all of whose pupils are attending a school operated by another board, the quotient, adjusted to the next largest whole number, obtained by dividing the number of those pupils enrolled on the first school-day of the current year by 39,
- (iii) for a board operating a school and having more than 20 pupils enrolled on the first school-day in the current year at a school operated by another board, the number of open class-rooms on the first school-day of the current year added to the quotient, adjusted to the next largest whole number, obtained by dividing the number of those pupils by 39, and
- (iv) for other boards, the number of open class-rooms on the first school-day of the current year,

but in determining the number of open class-rooms, open class-rooms in excess of the number in subregulation 3 of regulation 8 shall not be counted;

(c) "cost of operating" means,

- (i) the total of the disbursements for the normal operation of the board for school purposes, exclusive of payments in respect of principal, interest, and other charges on debentures issued and capital loans obtained on or after the 1st day of January, 1951, paid out of current funds by a board or on its behalf during the preceding year, and

- (ii) payments by a board or on its behalf in respect of principal, interest, and other charges due in the current year on debentures issued and capital loans obtained on or after the 1st day of January, 1951,

less current-fund receipts during the preceding year as follows:

- (iii) tuition fees from another board, and
- (iv) reimbursement for transportation of non-resident pupils;
- (d) "larger unit of administration" means a consolidated-school section, a township school area, an area under a township board, an improvement district, or a union of separate-school areas;
- (e) "open class-room" means a class-room used throughout each school-day by pupils in the charge of a teacher, and where a class-room is used for half of each school-day for kindergarten purposes, the class-room is half an open class-room; and
- (f) "population" means the population of the municipality as shown on the assessment roll on which taxes for the preceding year were levied, less the number of inmates of public institutions.

#### AVERAGE DAILY ATTENDANCE

8.—(1) Subject to subregulation 2, for the purpose of sub-clause i of clause e of subregulation 1 of regulation 7, the average daily attendance shall be the average daily attendance for the preceding year together with any additional average daily attendance to which the board is entitled under regulation 9.

(2) The average daily attendance shall be not less than the figure computed by multiplying the number of open class-rooms by 30, but the number of open class-rooms for this purpose shall be,

- (a) the number of open class-rooms as set forth under clauses a and b of subregulation 3; or
- (b) the number of open class-rooms actually in operation on the first school-day of the current year,

whichever is the lesser.

(3) The number of open class-rooms shall not exceed,

- (a) where the average daily attendance for a board in an urban municipality or in a rural school is fewer than 300, the number obtained by dividing the average daily attendance by 33 and allowing an additional room for any remaining fraction; or
- (b) where the average daily attendance for a board in an urban municipality or in a rural school is 300 or more, the number obtained by dividing the average daily attendance by 30 and making no allowance for any remaining fraction.

(4) For the purposes of determining the grant in respect of average daily attendance provided in regulation 10, "average daily attendance" for a board means average daily attendance of pupils for the previous year together with any additional average daily attendance to which the board is entitled under regulation 9.

9.—(1) Where, in the preceding year, a board operated for a term one or more auxiliary classes or units, the average daily attendance, as determined under regulation 8, shall be increased for that term by adding thereto,

- (a) 10 for each hard-of-hearing class, hospital class, orthopaedic class, limited vision class, and each full-time home-instruction teacher;
- (b) 4 for each opportunity class, and each full-time speech-correction teacher;
- (c) 1 for each gifted-children class, institutional class and health class;
- (d) 1 for each school which used the services of an approved itinerant auxiliary teacher or teachers, and which is operated by the board in a municipality with a population under 25,000;
- (e) 1 for each home-instruction and orthopaedic unit;
- (f)  $\frac{1}{4}$  for each limited vision unit;
- (g)  $\frac{1}{4}$  for each opportunity unit in schools not served by an itinerant auxiliary teacher;

but

- (h) the increase in average daily attendance under clause g shall not exceed  $\frac{1}{4}$  per school per term; and
- (i) the increase in average daily attendance under each of clauses e, f and g shall not exceed 15 for the board per term.

(2) Where, in the preceding year, a board operated one or more industrial-arts or home-economics class-rooms for a term, the average daily attendance, as determined under regulation 8, shall be increased for each of those class-rooms by the number set forth in Column 2 in accordance with the average daily attendance of all pupils attending the school in the preceding year set opposite thereto in Column 1 as follows:

COLUMN 1	COLUMN 2
Average daily attendance of school	Number per term to be added
Under 50	$\frac{1}{2}$
50 but under 100	1
100 but under 200	$1\frac{1}{2}$
200 but under 300	2
300 or more	$2\frac{1}{2}$

(3) Where, in the preceding year, the pupils of 2 or more schools operated by a board received instruction in industrial arts or home economics in one school operated by that board, the average daily attendance of those schools shall be added together for the purposes of subregulation 2.

(9) In addition to the grants under subregulations 1, 2, 3, 4, 5, 7, and 8, the board of a public or separate school shall be paid an additional grant of \$3 per pupil in respect of the increased average daily attendance under subregulation 1 of regulation 9.

11.—(1) In addition to the grant under subregulations 2 or 5 of regulation 10, there shall be paid,

- (a) a grant of \$300 to each board in the year in which it enters a larger unit of administration;
- (b) a grant of \$300 to the board of a larger unit of administration in respect of each former school-section or former separate-school area where the larger unit of administration included 2 or more but less than 6 former school-sections or former separate-school areas before the current year; or
- (c) a grant of \$500 to the board of a larger unit of administration in respect of each former school-section or separate-school area where the larger unit of administration included 6 or more former school-sections or separate-school areas before the current year.

#### TRANSFER OF SECTIONS AND AREAS

12.—(1) Where the whole of a public-school section, or a separate-school area, is transferred from one board to another, the grant for the former board for the year following the transfer shall be calculated as though there had been no transfer and be paid to the latter board.

(2) Where part of a school-section or a separate-school area is transferred from one board to another, for the year following the transfer,

- (a) the grant, exclusive of the grant calculated under subregulation 1 of regulation 11, shall be calculated as though there had been no transfer;

- (d) where applicable, the grant under subregulation 1 of regulation 11 shall be calculated in respect of the number of former sections or areas remaining in the larger unit of administration and be paid to the board of the larger unit of administration.

#### NEW BOARDS AND BOARDS COMMENCING OPERATION OF A SCHOOL

13.—(1) In the year in which a new board is established, other than a board assuming jurisdiction for school purposes of an area previously administered by another board, and in each year thereafter until the year following that in which the newly-formed board has operated a school for a year, the average daily attendance and recognized cost of the current year shall be used for the purposes of this Part.

(2) In the year in which a board commences operation of a school, and the board or any former board incorporated therein has not previously operated a school, and in each year thereafter until the year following that in which the board has operated the school for a year, the average daily attendance and recognized cost of the current year shall be used for the purposes of this Part.

(3) The portion approved by the Minister for grant purposes of a disbursement for,

- (a) capital charges;
- (b) capital outlays from current funds;
- (c) tuition fees paid to another board; or
- (d) transportation,

14. The board of a public or separate school shall be paid a grant equal to 50 per cent of the amount expended in the preceding year for the purchase of milk for consumption by its pupils on school days between 8.45 a.m. and 4.00 p.m., and supplied to them free of charge, less that portion of any amount contributed for the purchase of milk from any source which is in excess of 50 per cent of the amount so expended.

## PART 2

HIGH SCHOOLS, CONTINUATION SCHOOLS,  
AND VOCATIONAL SCHOOLS

## APPLICATION

16. This Part applies to general legislative grants in respect of high schools, continuation schools and vocational schools.

## INTERPRETATION

17.—(1) In this Part, "recognized cost", in respect of secondary schools and subject to subregulation 2, means,

- (a) the portion approved by the Minister for grant purposes of the payment, or of the amount set aside for payment, by a board from its current funds, or on its behalf by a municipal council, in the current year on principal and interest due in that year on debentures and capital loans other than those in respect of buildings, additions to buildings or equipment upon which a grant is provided by regulation 21;
- (b) the disbursement from current funds made by a board, or on its behalf by another board, during the preceding year in respect of tuition fees to another board for pupils attending a secondary school operated by that board and, where subregulation 1 of regulation 23 is applicable, tuition fees with respect to the year preceding the transfer which are owed to the board of any former district transferred to a new district by any other board transferred to that district;
- (c) the portion of the cost approved by the Minister for grant purposes in respect of disbursements made by a board from its current funds in the preceding year, except as set forth under regulation 24, for,
  - (i) transportation of pupils to and from school where their parents or guardians do not contribute directly to the cost of the transportation,
  - (ii) capital outlays for new buildings, for additions to buildings, and for equipment for new class-rooms,
  - (iii) capital outlays for school buses for the transportation of pupils, and
  - (iv) capital outlays for new heating-equipment, for new lighting, and for new sanitary-conveniences of a modern type, in schools already in operation where the average population of the municipalities within or partly within the high- or continuation-school district, whether or not only part of any municipality is included in the district, is under 3000; and
- (d) the total disbursements made by a board from its current funds in the preceding year, except as set forth under regulation 24, in respect of,
  - (i) the fee paid for membership in the Ontario School Trustees' Council and the fee paid for membership in one member association of the Ontario School Trustees' Council,

- (ii) capital outlays exclusive of expenditures for text-books, for school sites, for improvement of school sites, and for items under sub-clauses ii, iii, and iv of clause c, but not exceeding an amount computed by multiplying \$5 by the average daily attendance of pupils in high- or continuation-schools and \$10 by the average daily attendance of pupils enrolled in vocational courses,
- (iii) restoration of insured school-property destroyed or damaged, but not exceeding an amount equal to the insurance proceeds received in respect thereof;

less current-fund receipts during the preceding year as follows:

- (e) amounts transferred to current funds from capital funds;
- (f) insurance proceeds;
- (g) proceeds from the sale of school buildings and equipment; and
- (h) refunds and reimbursements connected with disbursements previously included in recognized cost.

(2) Except where grants are payable under regulation 21, debenture charges and capital outlays from current funds shall form part of the recognized cost only in the proportion that the average daily attendance of all pupils attending the schools under the jurisdiction of a board, exclusive of the average daily attendance of pupils whose fees are payable by another board, bears to the total average daily attendance in those schools.

(3) In this Part "recognized extraordinary expenditure per pupil" for a board operating a secondary school means the quotient obtained by dividing the sum of the amounts recognized for grant purposes under this Part for debenture payments due in the current year, for capital outlays from current funds, and for transportation by the average daily attendance of all pupils that attended the school or schools operated by the board during the preceding year, but excluding the average daily attendance of those pupils whose fees are payable by another board.

(4) In this Part,

(a) "assessment" means,

- (i) the assessment of all property, including any business assessment, rateable for school purposes in each municipality within or partly within the high- or continuation-school district, whether or not only part of any municipality is included in the district, as shown on the assessment roll on which taxes were levied for the preceding year, adjusted by the provincial equalizing factor, or
- (ii) where money is received by the board under section 33 of *The Assessment Act* or clause b of regulation 4 of Ontario Regulations 197/52, the assessment as set forth in sub-clause i, together with an amount equivalent to that which, if levied upon at the rate of real-property taxation on the rate-payers of the high- or continuation-

school district for school purposes, would result in taxes equal to the money so received by the board, adjusted by the provincial equalizing factor;

- (b) "population" means the total population of each municipality within or partly within the high- or continuation-school district, whether or not only part of the municipality is included in the district, as shown by the assessment rolls on which taxes for the preceding year were levied, less the number of inmates of public institutions;
- (c) "assessment per capita" means the quotient obtained by dividing the number representing the total assessment of the municipalities within or partly within the high- or continuation-school district by the number representing the total population of the municipalities, but where there is no assessment for school purposes, the assessment per capita shall be deemed to be \$2600; and
- (d) "cost of operating" means,
  - (i) the total of the disbursements for the normal operation of a board for school purposes, exclusive of payments in respect of principal, interest, and other charges on debentures and capital loans, paid out of current-funds by a board or on its behalf during the preceding year, and
  - (ii) payments by a board or on its behalf in respect of principal, interest and other charges during the current year on debentures and capital loans,less current-fund receipts during the preceding year as follows:
  - (iii) tuition fees, and
  - (iv) reimbursement for the cost of education of pupils residing in a part of a territorial district that is not in a secondary-school district.

AVERAGE DAILY ATTENDANCE

- 18.—(1) Subject to subregulation 2, "average daily attendance" for a board for the purpose of determining the grant in respect of average daily attendance provided in regulation 20, means average daily attendance of pupils in the school or schools operated by the board in the preceding year, exclusive of the average daily attendance of pupils whose fees are payable by another board but inclusive of any additional average daily attendance to which the board is entitled under regulation 19.
- (2) For the purposes of subregulation 1, the average daily attendance of a high- or continuation-school shall be not less than the figure computed by subtracting the average daily attendance of pupils whose fees are payable by another board and who attended the school from 20, or in the case of a school on an island or in a territorial district, from 40.
- 19.—(1) Where, in the preceding year, a board operated one or more departments of agriculture for a term, the average daily attendance, as provided in

regulation 18, shall be increased for each department by the number set forth in Column 2 in accordance with the average daily attendance of all pupils attending the school in the preceding year set opposite thereto in Column 1 as follows:

COLUMN 1	COLUMN 2
Average daily attendance of school	Number per term to be added
Under 100	5
100 but under 200	7½
200 but under 300	10
300 or more	12½

(2) Where, in the preceding year, a board operated one or more industrial-arts or home-economics classrooms in a high- or continuation-school for a term, the average daily attendance, as provided in regulation 18, shall be increased for each of those class-rooms by the number set forth in Column 2 in accordance with the average daily attendance of all pupils attending the school in the preceding year set opposite thereto in Column 1 as follows:

COLUMN 1	COLUMN 2
Average daily attendance of school	Number per term to be added
Under 50	½
50 but under 100	1
100 but under 200	1½
200 but under 300	2
300 or more	2½

- (3) Where, in the preceding year, the pupils of 2 or more schools operated by a board received instruction in industrial-arts or home-economics in one school operated by that board, the average daily attendance of those schools shall be added together for the purpose of subregulation 2.
- (4) Where, in the preceding year, a board operated one or more home-instruction units, the average daily attendance, as provided in regulation 18, shall be increased by 1 for each term in which the unit was operated.

AMOUNT OF GRANTS

32. The board of a public or separate school shall be paid a grant equal to the amount expended in the preceding year for text-books approved under clause *zf* of subsection 1 of section 12 of the Act, not exceeding an amount computed by multiplying \$3 by the average daily attendance in kindergarten to grade 10, both inclusive, during the preceding year.

33. The board of a public or separate school, except a board of an urban municipality with a population of 2,500 or more or of a rural municipality with a population of 25,000 or more, shall be paid a grant equal to the amount expended in the preceding year for library books recommended under clause *d* of subsection 2 of section 10 of the Act, not exceeding an amount computed by multiplying \$1 by the average daily attendance in kindergarten to grade 10, both inclusive, during the preceding year.

34. The board of a high, continuation, or vocational school shall be paid a grant equal to the amount expended in the preceding year for text-books approved under clause *zf* of subsection 1 of section 12 of the Act, not exceeding an amount computed by multiplying \$3 by the average daily attendance of pupils in grades 9 and 10 during the preceding year, but excluding from the computation the average daily attendance of those pupils whose fees are payable by another board.

PART 5

GRANTS FOLLOWING ANNEXATION

INTERPRETATION

35. In this Part “annexation” includes amalgamation.

36. This Part applies to grants following annexation.

37.—(1) In the year in which the whole of a public-school section or separate-school area is annexed to an urban municipality, a grant shall be calculated for the section or area as though there had been no annexation and paid to the board in the urban municipality.

(2) In the year in which a part of a public-school section or separate-school area is annexed to an urban municipality,

- (a) the grant exclusive of the grant calculated under subregulation 1 of regulation 11 shall be calculated as though there had been no annexation;
- (b) the portion of the grant calculated in respect of the debenture instalment levied either on the part remaining or on the part annexed shall be paid the board of the school section or separate-school area in the part remaining or in the part annexed, as the case may be;
- (c) the remainder of the grant calculated under clause *a* shall be paid to each board in the proportion that the number of pupils residing in the remaining part and residing in the part annexed, respectively, bears, on the last school-day of September preceding the annexation, to the number of pupils residing in the section or area being divided; and
- (d) where applicable, the grant under subregulation 1 of regulation 11 shall be calculated in respect of the number of former sections or areas remaining in the larger unit of administration and be paid to the board of the larger unit of administration.

(3) In the year in which the whole or part of a high- or continuation-school district is annexed to the urban municipality, the grants for the board in the newly annexed area shall be calculated under the provisions of regulation 24.

38. Where the whole or part of a municipality is annexed to an urban municipality on or after the 1st day of January, 1949, and at the date of annexation there were outstanding debentures for one or more school buildings in that municipality or part, as the case may be, the payments on the debentures to the extent that they were eligible for grant for the board of the school-section, separate-school area, or high-school district in the area annexed in the year of annexation shall, except in the year of annexation, form part of the recognized cost of the public-, separate- or high-school board of the urban municipality and the grant thereon shall be calculated at the rate applicable to,

- (a) the board of the school-section, separate-school area, or high-school district in the annexed area for the year preceding annexation;
- (b) the board of the school-section, separate-school area, or high-school district of the urban municipality for the year preceding annexation; or
- (c) the board of the school-section, separate-school area, or high-school district of the urban municipality for the current year,

whichever is the greatest.

39.—(1) Where on or after the 1st day of January, 1960, an urban municipality having a population in the year preceding annexation of 13,000 or more, annexes an area in which the combined average daily attendance of public-, separate-, and secondary-school pupils resident in that area exceeds 15 per cent of the

combined average daily attendance of public-, separate-, and secondary-school pupils resident in the urban municipality, there shall be paid to each board of the urban municipality an annexation grant per pupil as set forth in subregulations 2, 3 and 4.

(2) The annexation grant per pupil shall be the amount by which the grant per pupil paid under these regulations to the board or boards of the urban municipality in the year of annexation is exceeded by the grant per pupil paid in the same year in the annexed area, ascertained by dividing the grant paid in each case, exclusive of grants on debentures, on capital outlays from current funds, and for transportation, by the average daily attendance of resident pupils.

(3) In the second, third, fourth, and fifth years following the annexation, the annexation grant per pupil shall be paid on the excess of the average daily attendance of resident pupils of the board of the urban municipality subsequent to annexation over the average daily attendance of the resident pupils of the board of the urban municipality in the year preceding annexation.

(4) In the sixth year following the annexation, the annexation grant per pupil shall be reduced by 20 per cent, and in each year thereafter by an additional 20 per cent for each additional year.

#### PART 6

#### GRANTS FOR INSTRUCTION IN INDUSTRIAL ARTS OR HOME ECONOMICS TO NON-RESIDENT PUPILS

40. Where instruction in industrial arts or home economics was given in the preceding year to pupils admitted free from a school under the jurisdiction of another board, a grant of \$7.50 for each pupil so admitted shall be paid to the board giving the instruction for each term in which the pupil attended.

#### PART 7

#### GRANTS FOR INSTRUCTION IN INDUSTRIAL ARTS OR HOME ECONOMICS IN JOINTLY OPERATED CLASS-ROOMS

41.—(1) Where prior to the 1st of January, 1954, the boards of four or more larger units of administration operated jointly a class-room for instruction in industrial arts or home economics, and the instruction is continued thereafter jointly by two or more of those boards, or by two or more of those boards and the board or boards of one or more school-sections or union school-sections or separate-school areas, a grant of \$7.50 shall be paid to each board which continues to operate the class-room for each of its pupils for each term in which the pupil attended during the preceding year.

(2) In subregulation 1, "larger unit of administration" has the same meaning as in clause *d* of subregulation 3 of regulation 7.

#### PART 8

#### GRANTS FOR THE CONSTRUCTION AND EQUIPMENT OF VOCATIONAL UNITS

42.—(1) This Part applies to boards that qualify for payment under an agreement between Ontario and Canada whereby Canada reimburses Ontario for a portion of a payment by Ontario to boards for the construction and equipment of new vocational units.

(2) In addition to the amount recognized for grant purposes under the provisions of subregulation 3 of regulation 17, the Minister may approve for grant purposes, an amount, not exceeding \$10,000 per unit, of a board's disbursement for the construction and equipment of new vocational units.

(3) A board that operates a vocational school shall be paid in the current year a grant of a percentage of the amount approved under subregulation 2 at the rate applicable for an approved capital expenditure in the year in which the disbursement is made.

(4) In this Part, "vocational unit" means a vocational shop, a vocational drafting room, a vocational science laboratory, or a vocational class-room for typewriters or business machines, in a vocational or a composite school.

- (b) the assessment of the site as shown on the last revised assessment roll for the year preceding the year in which the title was received by the board, adjusted by the provincial equalizing factor for that assessment roll.

45. Where, on or after the 1st day of January, 1959, a board has received title in fee simple, free of encumbrance, to a school site purchased from current funds, the board shall be paid in the year following a grant of 50 per cent of the recognized cost of the school site.

46. Where, on or after the 1st day of January, 1959, a board has received title in fee simple, free of encumbrance, to a school site purchased from debenture money, the board shall be paid in the current year a grant of 50 per cent of the payment, or of the amount set aside for payment, by the board from its current funds, or on its behalf by a municipal council, in the current year on principal and interest due in that year on debentures issued in respect of the recognized cost of the school site.

47. Where, in the preceding year, a board sold a site, a deduction shall be made from the grant payable under these Regulations in the current year in the amount of 50 per cent of the assessment of the land as shown on the last revised assessment roll for the year preceding the year in which the site was sold, adjusted by the Provincial Equalizing Factor for that assessment roll.

48. For the purposes of Regulation 47, the assessment shall be not less than the assessment of land of equal real value in the municipality.

#### PART 10

##### LIMITATION OF GRANTS

49. The total of the grants under these Regulations to a board operating one or more public schools or one or more separate schools shall not exceed in any year,

- (a) 90 per cent of the cost of operating where the assessment per class-room is \$30,000 or more; or
